

5th Edition of International Conference on Oil, Gas, and Petroleum Engineering

Theme: "Foundations and Frontiers in Oil, Gas
& Petroleum Engineeringt"

17-19
SEPT 2026

Scientific TOPICS

- Advances in Oil & Gas Exploration Technologies
- Reservoir Engineering & Enhanced Oil Recovery Techniques
- Unconventional Resources: Shale Gas, Tight Oil & Heavy Oil
- Drilling Engineering & Well Construction
- Hydraulic Fracturing & Well Stimulation Techniques
- Geomechanics & Reservoir Characterization
- Geophysical & Geological Innovations in Hydrocarbon Exploration
- Well Logging, Testing & Reservoir Monitoring
- Pipeline Engineering, Integrity & Corrosion Management
- Liquefied Natural Gas & Gas Processing Technologies
- Storage & Transportation of Crude Oil & Natural Gas
- Advanced Refining Technologies & Catalysis
- Petrochemical Engineering & Polymer Production

VENUE

Rome, Italy and Online

Tentative Program

Keynote Presentations

Anthony J Sadar, Environmental Science Communication, LLC, United States

Title: Will be updated soon...

Selim Sanad Shaker, Geopressure Analysis Services, United States

Title: Will be updated soon...

Sharma Dronamraju, AKD Professional Solutions Inc., United States

Title: Will be updated soon...

Saim Memon, Sanyou London Pvt Ltd, United Kingdom

Title: The Vacuum Insulated Heatable Curtain (vihc): From conceptual invention to market deployment as a cost-effective dual solution for window heat loss reduction and localised radiant comfort

Cleveland M Jones, Fronteira Energia Ltda, Brazil

Title: Will be updated soon...

Nur Hassan, Central Queensland University, Australia

Title: Transforming waste plastic into hydrogen: Progress, challenges, and future directions in pyrolysis-based integrated pathways

Oral Presentations

Ross Cygan Taylor, North Sea Transition Authority, United Kingdom

Title: Unlocking UKCS potential through collaborative well interventions

Mariam Alzaabi, Abu Dhabi National Oil Company, United Arab Emirates

Title: Innovative solutions for accurate and efficient gas monitoring

Sharina Al Muhairi, ADNOC Onshore, United Arab Emirates

Title: Driving excellence in marginal field development and operations through an integrated smart strategy to unlock challenging sour oil

Raysa Bani Ibrahim, Abu Dhabi National Oil Company, United Arab Emirate

Title: Innovative solutions for accurate and efficient gas monitoring

Fahad Almehmadi, Saudi Aramco, Saudi Arabia

Title: Enhancing LPG capacity at Rabigh bulk plant: A case study on flow optimization and operational efficiency

Abdulrahman Bahashwan, Saudi Aramco, Saudi Arabia

Title: Optimizing asset integrity for a more resilient and sustainable energy future

Tanmay Milind Sutay, Oil India Limited, India

Title: Reservoir screening and feasibility assessment for underground natural gas storage in upper Assam basin

Ashutosh Ranjan, Oil India Limited, India

Title: Reservoir screening and feasibility assessment for underground natural gas storage in upper Assam basin

Tentative Program

Oral Presentations

Ganesh Markad, Proclink Consulting, India

Title: Enhancing refinery operational excellence: An AI-powered approach to digital operations management

Archita A Vijay, Worley, India

Title: Development of self-healing coating for harsh environment instrumentation sensors in oil and gas facilities

Abhishek Tyagi, Central University of Rajasthan, India

Title: Development of surface-functionalized tailored polymer blend for enhanced oil recovery for non-producing reservoirs

Indra Sanjaya, PHE ONWJ, Indonesia

Title : Unlocking field development through infill well success delivering 3,000 BOPD via integrated dynamic analysis and seismic reprocessing: Lima field, PHEONWJ

Oral Presentation slots are still Open!!

Poster Presentations

Hadi Abdollahi, China University of Petroleum Beijing, China

Title: Enhanced oil recovery and CO2 storage using polymer-enhanced CO2 foam: Foam strength and mobility control

Poster Presentation slots are still Open!!
